What would you be doing if you weren't in your current position at C&W?

If I wasn't in my current role, I would be giving into my culinary instincts, perfecting beetroot hummus in a commercial kitchen.

Why did you join ASPIRE?

I joined ASPIRE because it helps provide a sense of community. The ASPIRE team is working on many initiatives this year which will allow ASPIRE members the opportunity to come together, participate in sessions, find themselves engaged and walk away from events feeling inspired.

What book(s) would you recommend to read and why?

I would highly recommend reading *The Happiness Equation* by Neil Pasricha. It provides actionable steps one can take to develop a positive attitude, add one hour to your day to work on passion projects and achieve happiness in our lives.
